About SRA

The SRA (Shadow Riders Australia) website was created in July 2009 to enable interaction between Honda Shadow owners in the same format as HSOCUK (Honda Shadow Owners Club UK). A forum was established and free memberships offered, not only in order to access the SRA forum but to attract group discounts down the track as our numbers increase.

The first members to register were friends and contacts from HSOCUK keen to support a venture in Australia similar to the one so successfully running the UK. Having contacts internationally provides opportunities for members from all corners of the globe to meet and ride on occasion when holidaying.

SRA is developing in such a way that it will always include member's families in planned activities. As membership grows nationally the potential for social events on a local level within each state increases. SRA will host within its website free of charge all interstate SRA groups and their activities. If you are interest in establishing a group in your locality please contact us for assistance and advise.

SRA and its website holds the potential to initiate an Australia wide network of like-minded riders providing opportunities to those riding locally, or travelling nationally or internationally. I look forward to welcoming many more Shadow Riders to the SRA family over the weeks and months ahead.
